in this pioneering work paul r abramson and ronald inglehart show that the gradual shift from materialist values such as the desire for economic and physical security to post materialist values such as the desire for freedom self expression and the quality of life is in all likelihood a global phenomenon value change in global perspective analyzes over thirty years worth of national surveys in european countries and presents the most comprehensive and nuanced discussion of this shift to date by paying special attention to the way generational replacement transforms values among mass publics the authors are able to present a comprehensive analysis of the processes through which values change in addition

value change in global perspective analyzes the 1990 91 world values survey conducted in forty societies representing over seventy percent of the world s population these surveys cover an unprecedentedly broad range of the economic and political spectrum with data from low income countries such as china india mexico and nigeria newly industrialized countries such as south korea and former state socialist countries in eastern europe and the former soviet union this data adds significant new meaning to our understanding of attitude shifts throughout the world value change in global perspective has been written to meet the needs of scholars and students alike the use of percentage percentage differences and algebraic standardization procedures will make the results easy to understand and useful in courses in comparative politics and in public opinion paul r abramson is professor of political science michigan state university ronald ingelhart is professor of political science and program director institute for social research university of michigan

this book invites educators to rethink how knowledge about the world is conceptualized advocating for a decolonized critical curriculum it emphasizes understanding diverse perspectives and addressing social differences like gender race and religion

sociology a global perspective ninth edition introduces readers to the concepts and theories of sociology demonstrates how those concepts and theories can be used to think about the most significant and pressing global issues of our day and uses powerful visual images to illustrate their impact on individuals local communities and society important notice media content referenced within the product description or the product text may not be available in the ebook version

this was the first introductory text to use a truly comparative global approach to teach sociological concepts and ideas some texts claim to be global by including global boxes however the entire ferrante text is written from this perspective ferrante uses an in depth examination of life in other countries to help students understand sociological concepts while also providing comparison to the united states by integrating throughout each chapter the connections to american society this text gives students a broader understanding of sociological concepts global interdependence and societal differences as well as similarities

this study is the first interpretive text for the study of american exceptionalism and the first overall assessment of geographic political economic social and cultural aspects of the american past written from a global perspective russo argues that life in the united states can be better understood if it is examined from either a wider perspective the english speaking world the western hemisphere western civilization or a narrower perspective

regional and local variations even when the americans were innovative in their multi ethnic and multi racial society in their egalitarian social beliefs in their political democracy their innovations were soon copied by others therefore russo argues they are no longer distinctly american using nations as the basis for fields of study can both reveal and distort the historical record when one considers different perspectives america s uniqueness recedes in importance american culture was a variant of a wider western culture the american economy was an extension of western capitalism whether agrarian commercial or industrial american society was a western society with racial castes and multi ethnic additions to the population american government functioned like other western governments even with innovative forms republican then democratic the american past is thus seen to be far less distinctive than previous syntheses have assumed

this study is the first interpretive text for the study of american exceptionalism and the first overall assessment of geographic political economic social and cultural aspects of the american past written from a global perspective russo argues that life in the united states can be better understood if it is examined from either a wider perspective the english speaking world the western hemisphere western civilization or a narrower perspective regional and local variations even when the americans were innovative in their multi ethnic and multi racial society in their egalitarian social beliefs in their political democracy their innovations were soon copied by others therefore russo argues they are no longer distinctly american using nations as the basis for fields of study can both reveal and distort the historical record when one considers different perspectives america s uniqueness recedes in importance american culture was a variant of a wider western culture the american economy was an extension of western capitalism whether agrarian commercial or industrial american society was a western society with racial castes and multi ethnic additions to the population american government functioned like other western governments even with innovative forms republican then democratic the american past is thus seen to be far less distinctive than previous syntheses have assumed

a comprehensive review of world war ii that offers a global level analysis written for academics and students of history world war ii in global perspective 1931 1953 presents a dynamic and global account of the historical events prior to during and after world war ii the author a noted expert on the topic explores the main theaters of the war and discusses the connections between them he also examines the impact of the war on areas of the world that are often neglected in historical accounts including latin america sub saharan africa and the so called neutral countries this comprehensive text clearly shows how in the

struggle against the axis powers the united states replaced britain as the global superpower the author discusses the japanese invasion of manchuria in 1931 and the korean war 1950 1953 and argues that the core years of the war 1939 1945 cannot be understood without considering the turbulent events that framed them the text puts world war ii in context as a series of large regional conflicts that intersected and overlapped finally emerging as a genuine world war with the formal entry of the united states in late 1941 this vital text offers a comprehensive review of world war ii that frames it in a global context gives weight to the economic and political developments of the war provides a robust account of the main military campaigns contains illustrations and maps that themselves highlight little known aspects of the global war

more than 40 years ago recognizing that higher education would have to take responsibility for educating americans about other world cultures and societies congress passed the national defense education act later known as the higher education act title vi of this act has provided extensive support for foreign languages and area studies development in the nation s universities and colleges as a result millions of americans have been able to acquire knowledge about other parts of the world today there are new issues demands and perspectives americans are more likely than ever to encounter different cultures business practices histories ideologies and ways of life in addition the united states is increasingly called upon to intervene or mediate in regional and local crises far beyond its borders u s educational institutions must continue to help citizens to have informed opinions about complex international problems changing perspectives on international education is designed to be used by administrators and planners in u s education it covers the field of international studies as it has developed in the united states from its beginnings and accomplishments under title vi to the current paradigmatic shifts taking place in research teaching and outreach a major section is devoted to internationalizing the curriculum of k 12 schools it concludes with a look at future trends and how they may affect international scholarship and training in the new century it also provides an extensive bibliography of international resources

the first text that specifically links both international and internal migration with development at a global level the world is divided into a series of functionally integrated development zones which are identified not simply on the basis of their level of development but also through their spatial patterns and historical experience of migration migration and development stresses the importance of migration in discussing regional rather than simply country differences these variations in mobility are placed within the

context of a global hierarchy although regional national and local cultural and social conditions are certainly not ignored in this wide ranging work

facing the music provides a rich resource for reflection and practice for all those involved in teaching and learning music in culturally diverse environments from policy makers to classroom teachers in seven chapters that each approach the topic from a different angle schippers gradually unfolds the complexities and potential of learning and teaching music out of context in an accessible manner and presents a coherent model to approach these as well as lucid suggestions for translating the resulting ideas in practice
